

## **SUG Telecon, 27 June 2017**

Present: Chuck, Jim T, Francisco, Jim Sky, Tom, Shing, Larry, Mark, Wes, Dick

Tom – little Jupiter

Dick – OS upgrade to Win7 upcoming at WCCRO

Chuck – all working -

Larry – Trouble with LAN hard drive storage of data

Francisco – getting close at RHO with the TFD and spectro

### **HEC**

Lots of discussion as to how to contact eclipse participants (web posting or individual contact). Two items – who is going to participate in eclipse; and, how to detect and mitigate RFI. Jim S said he is writing a piece on RFI detection and mitigation and it should be done in a week or so. Discussion without resolution of the “plan” as to the next practice session and other things eclipse related.

Discussion about solar bursts Chuck sent around as to what was the cause of differences in appearance of solar bursts at different stations.

### **Archiving**

Nothing new on Archiving.
